AISES Board of Directors Nomination Committee

Dear Members of the Nomination Committee,

It is with great enthusiasm and heartfelt confidence that I write to endorse **Longfeather Fox** for a position on the AISES Board of Directors. As the Coordinator for the Hualapai Business Incubator Training and founder of INN8TIVATORS, Longfeather is a visionary leader whose passion for Indigenous advancement through STEM education is both inspiring and unwavering.

Longfeather's work speaks for itself. Through INN8TIVATORS, he has created transformative opportunities for Native American youth breaking barriers to access and reimagining what Indigenous excellence in STEM can look like. His approach is not only grounded in technical innovation but deeply rooted in cultural relevance, honoring tradition while building pathways to professional success.

Serving on the AISES Board of Directors is a natural extension of Longfeather's lifelong dedication to empowering Native communities. He brings more than experience, he brings lived insight, entrepreneurial spirit, and a proven commitment to leadership development and educational equity. His voice would strengthen AISES's mission and help ensure that strategic decisions reflect the diverse needs of our communities.

Longfeather's desire to broaden access, strengthen partnerships, and innovate culturally rooted approaches to STEM aligns seamlessly with AISES's vision. I am confident that he will bring wisdom, creativity, and tireless energy to the Board championing the next generation of Indigenous scientists, engineers, and changemakers on a national stage.

I wholeheartedly support his nomination and urge you to give him your fullest consideration.

Sincerely,

A handwritten signature in cursive script, appearing to read "Alicia Mitchell". The signature is written in black ink on a light-colored background.
