

I'm proud to endorse Joshua John for continued leadership within AISES on the BOD. Having worked alongside him, I've seen firsthand the professionalism, integrity, and cultural grounding he brings. Joshua leads with purpose, stays actively engaged, and consistently prioritizes the mission and values of AISES in all that he does.

His engineering background and systems thinking allow him to approach complex challenges with clarity and focus, always keeping long-term community impact at the forefront. Whether it's contributing to strategic decisions or supporting outreach efforts, Joshua remains thoughtful, intentional, and results-driven.

He's also a dedicated mentor who invests in the success of others. He uplifts peers and students alike through his actions, words, and presence. Joshua brings collaboration, insight, and heart to every space he's in. He's precisely the kind of leader AISES needs, and I'm honored to give him my full endorsement and support his continued service on the BOD.
